

Poles 'n' Wires Price List

Standalone licence

Each Standalone licence allows one user to run the program at any one time. If you want multiple users running the program at the same time you need to purchase multiple Standalone licences. The price per unit decreases as you buy more licences.

Qty	Standalone licences - Unit Price per Copy	Annual Upgrades and support fee
1	\$2,830.00	\$260.00
2 - 5	\$2,240.00	\$213.00
6 - 10	\$1,805.00	\$172.00

- The licence fee includes 6 months of upgrades and support.
- POA for a larger number of licences.

Portable licence

For an one-off fee of \$340 you can upgrade a standalone licence to a portable licence. This allows you to install the software on as many computers as you wish. Only the computer with the USB dongle plugged in will be able to use the licence.

Notes:

1. The Upgrades/Support fee entitles you to all upgrades and bug fixes while your subscription is current.
2. A “Standard installation” is where the program is installed on a single PC/laptop.
3. Subscriptions renew on 30 April each year.
4. Prices are in Australian Dollars (Australian purchasers add 10% GST to the above prices).
5. There is a separate price list in USD for North America.
